

Lina Seow

Senior Coach

Profile

Lina Seow has worked in both SMEs and public listed companies for the past ten years. She was the Acting head of the training subsidiary of a Malaysia-based multinational corporation that is active in manufacturing, distribution, sales and automotive assembly. Besides managing and conducting training for the local subsidiaries as a HRDF certified Train-the-Trainer, she is also involved in selected training projects across South East Asia countries.

When she was a HR Manager for a SME to manage the full spectrum of HR functions, she noticed the lack of talent management in most SME causes them not only losing talents, but also potentially hinder them to grow bigger. When her own siblings decided to work overseas, it inspired her to do something for the local SMEs. By joining Vimicoach, she hopes by adding values to SMEs may create better opportunities for our youngsters. She is also a Certified Solution Focused Coach.
